

# Blue Bonnet Door Maintenance

---

## Replacing

The door should be replaced with a solid core birch wood door. A replacement can be found at Probuild Lumber, catalog number 304240.

## Staining

*Stain:* Dark Walnut By Old Masters, available at Kelly Moore

*Finish:* Minwax indoor/outdoor Helmsman Spar Urethane in clear semi-gloss.

A Marine varnish would be more durable and is also acceptable.

*Instructions:*

1. Remove lock and door knob.
2. Remove door from frame.
3. Sand entire door well in direction of wood grain.
4. Apply one coat of Dark Walnut wood stain and let dry.
5. Apply two coats of finish letting dry between applications.
